KARAOKE FOR THE PROFESSIONAL!

Karaoke singing for all! With more than 30,000 songs to choose from, the Karaoke Touch One offers the perfect compact karaoke experience!

The Karaoke Touch One is a standalone karaoke system, however, it can also be installed with the mounting brackets that are included, into a standard 19 inch rack.

The karaoke software that comes as standard, makes the Karaoke Touch One ideal for any location from bars, restaurants, private rooms and for rental companies.

CONNECTION OPTIONS

- Two HDMI outputs
- Ethernet RJ45
- XLR Balanced
- RCA Unbalanced
- USB connection on the front

UNIQUE KARAOKE SYSTEM

The Karaoke Touch One is an ideal karaoke solution. Internet is not required. The database is regularly updated remotely. The USB connection allows you to play your own karaoke songs as well as the preloaded songs.

Everything that normally requires a separate computer or Internet connection is built into the Karaoke Touch One making it the best choice for any location.

REBRANDING

The Karaoke Touch One can be delivered in any color. In addition, it is also possible to customize your branding into the software.

SAFETY AND CERTIFICATION

The Karaoke Touch One delivers fun with safety. The electronics we use are carefully chosen and are RoHS and CE certified.

The Karaoke Touch One also complies with all safety requirements and NEN1010 certification and is built with name-brand components.

SERVICE AND SUPPORT

The Karaoke Touch One can be used immediately after it has been delivered to you. Sunvig will add all necessary software updates remotely.

Our support desk is ready to assist you with any questions or problems.
